**Invitation to the AMARC 9 Conference and General Assembly
11 to 17 November 2006, Amman, Jordan**

Dear Colleagues,

As President of the International Board of Directors of the World Association of Community Radio Broadcasters' (AMARC), it is a pleasure to invite you to the Ninth World Conference of Community Radio Broadcasters to be held in Amman, Jordan, 11 to 17 November 2006.

Jordanian Internet pioneer and FM community broadcaster, Ammanet, (<http://ammannet.net>) will host the conference, in partnership with media and journalists groups from Jordan and Palestine. AMARC 9 will bring together 300 to 400 community broadcasters from over 110 countries and all regions of the world, to discuss the present challenges facing community radio and to explore ways to increase the impact of the community radio movement.

AMARC's International Board, the International Secretariat, colleagues of Radio Ammanet, and other local organizations participating in the organization of AMARC 9 are working enthusiastically to ensure that the event will be highly productive, participatory and enjoyable, as well as a valuable working and learning experience for all the attendants.

The International Board cordially invites you to join us with your voices, initiatives and propositions of papers or workshops. For further information, regular updates and registration, please visit the AMARC9 Conference website at: www.amarc9.amarc.org

Warm regards,

Steve Buckley
President of AMARC
